Dear Business Partners,

Even in challenging times as the corona crisis most definitely is, we are strongly committed to support the health care sector as a medical device manufacturer and would like to inform you today about the current situation in our company.

We have taken a number of measures to face the extraordinary challenges and to protect the health and safety of our employees as best we can. Immediately, courageously and responsibly.

As far as business is concerned - the most important thing first: Our performance and delivery capability is secured. Our stocks are full, workplaces are staffed and the "team" is doing well. So we are still there for you!

In order to remain "Corona free" in our company, we have introduced additional measures to ensure the safety of our employees, our customers and all business partners as a precaution. Among other things, these measures include tightened operational and personnel hygiene, internal rules of communication and behavior as well home office solutions.

At the moment there is no impairment in our service. So we can continue to process and execute your orders quickly and reliable as usual.

Stay healthy and do not hesitate to contact us with any questions. Our team will be happy to assist you.

Sincerely yours
Pneumatik Berlin GmbH PTM

Hartmut Welke
Managing Director
